His book, *"Failing My Way to Success"* is the moving true story of Steve's personal journey through life influenced by business failures, eventual success and philanthropy. "Careening from triumph to disaster and back again, Steve Lobel's *"Failing My Way to Success"* is a beautiful, eloquent reflection of its author's honesty, wisdom, and deep humanity. The life and business lessons he shares are invaluable for all readers, regardless of whether we consider ourselves successes, failures, or somewhere in between." David Alan Miller, Music Director, Albany Symphony.

Lobel said, "I believe my story of both failure and success resonates with everyone on some level. Each time I tell the story it is my hope that it opens a new door for someone to share their difficulties and discover how they can transform their own life experience." *"Failing my Way to Success"* will be available for purchase \$5 of every \$15 copy of the book will be donated back to CBE!
